

RFD - Multihole Plates for Connectors

Details:

- **Ferrite Material: A5**
- MultiHole plates for connectors are special solutions used as EMI suppression devices (in connectors) to be assembled on a PCB
- There is a wide selection of multihole for "D" subconnectors as well as suppressor elements for DIL and transition elements
- Designs to fit 9,15, 25 or 37 "D" subconnectors
- Transition connectors and integrated circuit products are also available.
- Available in a wide range of dimensions from 1.22 mm to 5.4 mm (see dimension C in table for reference)
- Custom sizes are available by special order
- Impedance figures are typical values and based on single turn measurements
