

BBST - Bumper tape

Details:

- **Material: olyurethane based tape coated with an aggressive pressure sensitive adhesive.**
- **Colour: transparent, black, white, brown**
- Adhesive:
 - Color transparent: 4001*
 - Colors: black, white, brown: 6001*
- Slitting tolerance: $\pm 0.5\text{mm}$
- Highly Transparent - Discrete colour matching
- Age resistant - Will not crack, harden or yellow
- Highly resilient - Hard wearing & non-slip
- High abrasion resistance - Excellent cushioning properties
- Shock & vibration resistant - Sound dampening qualities
- Suitable for conversion - Special die cutting liner
- Die-cut squares, rectangles, ovals, washers, strips, discs etc
- Die-cut into custom gaskets to suit individual applications
- Creates effective spacers or cushioning onto glass or clear plastic
- Corner protection strips and kick pads
- Protective spacers for Aerospace and Automotive applications
