

The technical drawing on the left shows a bolt in a perspective view. It has a hexagonal head with a central square hole, a threaded section, and a pointed end. A dimension line with arrows at both ends is positioned to the right of the bolt, labeled with the letter 'H'. To the right of the technical drawing is a 3D model of a nut, which is a hexagonal ring with internal threads. The text 'ip) KONTAKT' is repeated six times around the nut, indicating contact points or measurement locations.

- **Material: PA 66 V2**
- Colour: grey (RAL 7001), Light grey (RAL 7035), black (RAL 9005)
- Thread: PG (DIN 40430)
- Working temperature: -30°C to +80°C (150°C short-term)
- UV resistance
- Halogen free
